MADISON COUNTY 2019 MUD BOG CHANGES PLEASE READ!!

ATTENTION DRIVERS:

In the past there was changes trying to be made at the last minute that caught the staff and drivers off guard. Our understanding is that surrounding tracks are going by Western Iowa Mud Racing Rules. Therefore, those trucks will be classed according to their inspection sticker.

We will have some trucks that will need to be inspected and vacuum tested; engine must maintain 16 inches of vacuum at 1000 rpm. You may bump up at the cost of another entry fee at time of registration, however, there will be no refunds if you break. Farm/Street Stock trucks **MUST** have roll cage to bump classes.

Don't forget all the extras you might need: Extra belt, Helmets, Jack, Spare Tire & wheel, Tools, Duct Tape, Fire Extinguisher, and Fuel. I know it's a short list.

\$500 added to each night and 100% payback!
